

Tesla Electrical Industries

www.indiamart.com/teslaelectricalindustries

Tesla electrical industries is one of the leading manufacturers and suppliers of products like control panel, silica gel drying oven, brazing machine, change over switch, current injection source, dry roll pres, DVDF test set etc.

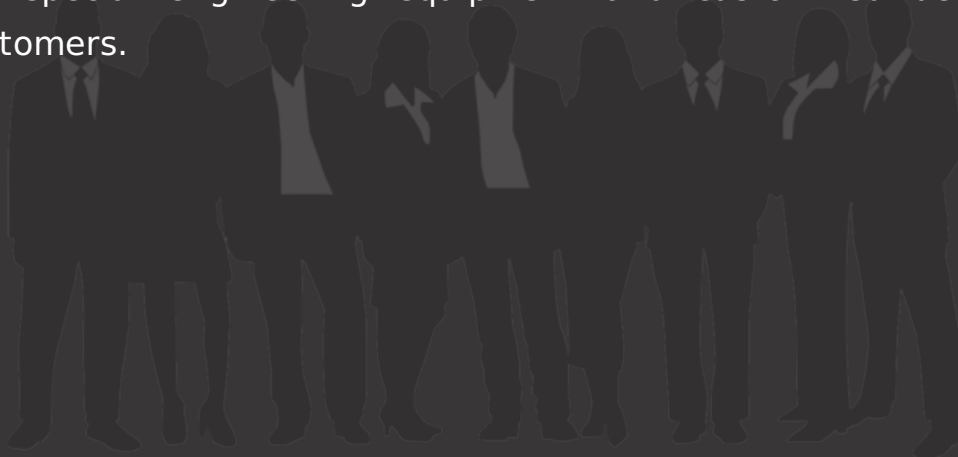

A b o u t U s

Tesla Electrical Industries incorporated in the year **1970**, as an ancillary unit of Bharat Heavy Electrical Limited Bhopal. Nikola Tesla a well known name well recognized in field of Electrical Engineering, for his invention like Induction Motor, Tesla coil etc. inspired us to name our organization for a scientist totally devoted for the cause of Electricity. Tesla is pioneer in Design, Manufacture, Testing, Installation & Commissioning of test equipment and special purpose machine for various industrial applications. We have developed our technical capabilities by interacting with BHEL's team for their wide range of requirement in different fields.

Our products are extensively appreciated and highly praised in the market for their finish, superior quality, trouble free maintenance, customized designs and consistent performance as per National/ International standards. Our offered assortment is manufactured using finest grade raw material and progressive technology under the supervision of our experts. The raw material which we utilize is obtained from the reliable sources of the market of high quality standard, to avoid any kind of imperfection, these are thoroughly tested on predefined parameters.

We have developed a superior and progressive infrastructure, which helps us in running the business related activities in a smooth manner. The infrastructure is equipped with most modern machines and up to date technology with full load testing test set up & precise measuring instrument that enable us in providing a comprehensive assortment of the products. Professionals appointed by us make sure to divide the premises so as to perform each business practices in a well-organized manner.

Under the guidance of our brilliant mentors **Mr. M. F. Siddiqui** , we are able to provide the special engineering equipment and customized design to our valuable customers.

HIGH VOLTAGE BREAKDOWN TESTER

High Voltage DC and AC Breakdown Tester

High Voltage DC Breakdown Tester

High Voltage AC Breakdown Tester

High Voltage AC Breakdown Tester

INDUSTRIAL RECTIFIER

Battery Charger

High Current Low Voltage Rectifier

High Voltage Low Current Rectifier

TEST BENCH

Universal Laboratory Test Bench

Pneumatic and Hydraulic Test Bench

Electronics Test Bench

Transformer Test Bench

INDUSTRIAL TESTING TRANSFORMER

Booster Testing Transformer

Auxiliary Testing Transformer

Power Testing Transformer

Testing Transformer

OTHER PRODUCTS:

Fixed Reactor

Variable Reactor

AC and DC Primary
Current Injection Source

AC and DC Secondary
Current Injection Source

OTHER PRODUCTS:

Resistance Brazing Machine

Industrial Baking Oven

Industrial Drying Oven

Power Factor Correction Panel

OTHER PRODUCTS:

Dry Roll Press

Single Phase Impedance Measurement Kit

Three Phase Impedance Measurement Kit

Knee Point Measuring Kit

OTHER PRODUCTS:

Auto Transformer Control Panel

Capacitor Panel

VCB Endurance Testing Machine

Capacitor Pack Testing Machine
